Subject: Galion City Health Department Vaccine Program

Dear Galion City Health Department Board Members,

I am writing to commend the Galion City Health Department on their organization and delivery of the Covid-19 Immunization program.

The Galion City Health Department website was easy to navigate and effective. Other organizations have not mastered this process; however, Galion's approach is noteworthy.

The pre-registration is intuitive, and they responded in a timely manner. The vaccine process -from registration to injection- was streamlined and professional.

On the way to my appointment, I was preparing myself for a long line and the cattle call approach I have heard about at other vaccine locations. I should have known that my hometown health department would have a more humane and organized way of managing vaccines during a pandemic.

The vaccine process was professional and stress-free from start to finish. When I arrived at the location, I was impressed with the organization. The location was large enough that it felt safe, and everyone was mindful of social distancing. Further, the administration of the shot was quick and delivered by an experienced professional.

Thank you so much for overseeing such an exceptional health department!

Sincerely,
Alesa Mansfield
