

Galion City Board of Health Environmental Division Monthly Report for June 2021

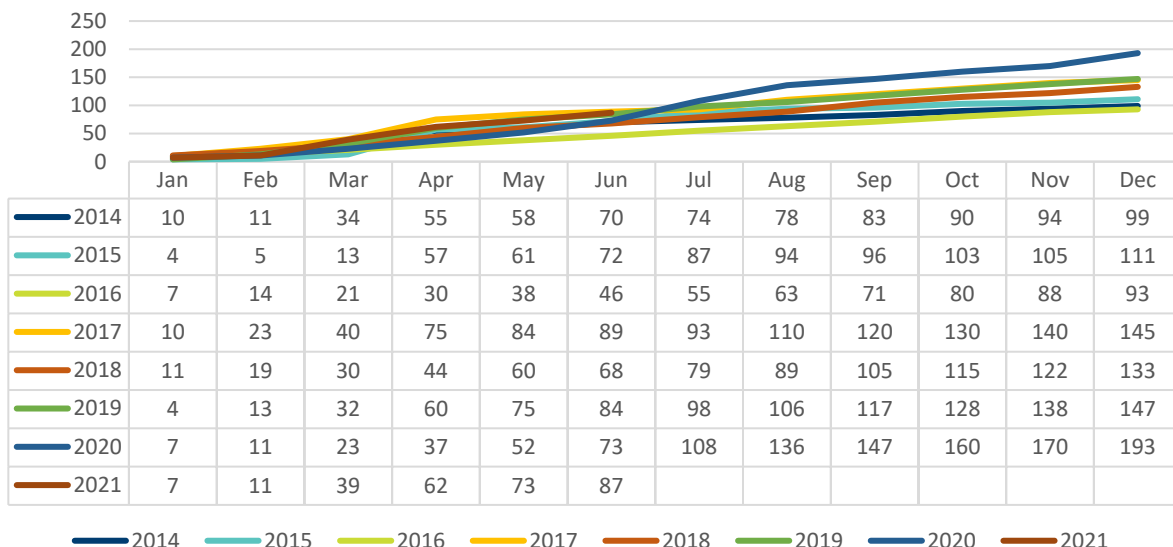

Food Safety

I have inspected and licensed some Mobile FSO's during June, and one temporary at Third Friday in Galion. I plan to start doing the first half of annual food inspections in July. I am in the process of giving approval for the plans for Buehler's Fresh Foods to be a risk level IV retail food establishment.

Public Health Nuisances

There were 14 nuisance complaints during the month of June. Two were sewage complaints, one was retail food establishment sanitation, and the rest were solid waste/garbage complaints. Several complaints are being investigated in conjunction with the zoning inspector. Most of the complaints are now closed.

Public Health Nuisances, Cumulative Total 2014 - current

General Environmental Health

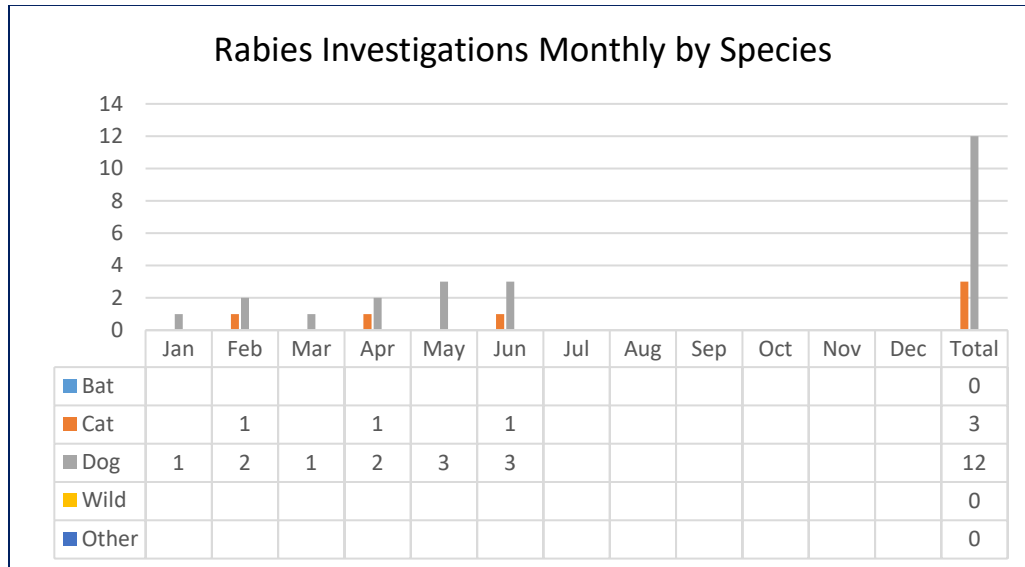

The final manufactured home park was inspected 6/28/2021 which completes our contract for inspections with the Ohio Department of Commerce. Billing for inspections will be in July.

Healthy Homes and lead poisoning prevention activities were completed with some Galion citizens, teaching wet cleaning methods to reduce lead dust levels in older homes. Dual-sided buckets with mops, all purpose cleaner and gloves were purchased with lead poisoning prevention funds from ODH.

The Ohio Department of Health asked us to do the Smoke Free investigations contract again from 7/1/21 to 6/30/23 which reimburses us \$125 per completed complaint investigation made against a business in the city of Galion.

Rabies Prevention

GCHD received 3 dog and 1 cat bite reports in the month of June. The quarantine notices were sent out. The cat was a bite that resulted in it being euthanized by the veterinarian and tested by ODH. The cat was negative for rabies.

Respectfully Submitted,

Andrea Barnes, R.S.
Director of Environmental Health
