

Outreach Report
Galion Third Friday
June 21, 2023 4:30-7:00pm

Division:

Clerical and BOH
Environmental Health

Participating Staff:

Carrie Bednarz, MA
Andrea Barnes, REHS Director of Environmental Health
Board of Health – Heidi Matney

Anticipated Outcome: To provide general health education on what the health department does with a focus on Environmental Health and Mosquito Control

Description of event: This event was part of the regularly scheduled Galion Third Friday events. We set up a table with our logo tablecloth and various contributions from nursing for infection/prevention and control, the sexual health clinic, and environmental health.

Location: Galion

Audience: Families and Couples

of Community Members Impacted: 15-20

Sponsor: Galion-Crestline Chamber of Commerce

Outcomes of event: It was a very nice weather evening for a Third Friday in July. We had 15-20 people visit our table in 2 and a half hours. Several packs of mosquito dunks were given out, along with mosquito repellent wipes. Several hand sanitizers were given out as well as some interest in the sexual health information and products.

In what ways can outreach be improved? Provide business cards for subject matter expertise.
