

Outreach Report  
GMS Winter of Wellness

02/19/2025

Director of Nursing  
Health Commissioner

**Participating Staff:**

Brandi Riddlebaugh, RN DON  
Andrea Barnes, REHS HC

**Anticipated Outcome:** Information on GCHD Services to Area Children/Families

**Description of event:** Galion City Health Department was invited to collaborate with the schools on their first attempt at providing a Winter of Wellness to the community.

**Location:** Galion Middle School, Galion

**Audience:** Families with children 18 and under.

**# of Community Members Impacted:** More than 50 participants

**Sponsor:** Galion City Schools in partnership with the community and community businesses.

**Outcomes of the event:** GCHD successfully interacted with approximately 20 families. Brandi offered free blood pressure checks, COVID-19 test kits, handouts on our services, and more. I gave out mosquito dunks and lead poisoning prevention home cleaning buckets with education inside.

**In what ways can outreach be improved?** I would have expected more families. Maybe, if the schools continue this event, it will get more attention and more families will participate.
