

Outreach Report
Galion/Crestline Safety Town
July 30th, 2025

Division:

Nursing

Sexual Health

Participating Staff:

Brandi Riddlebaugh, RN

Abby Volk, DIS

Sydney Miley, Student Volunteer

Anticipated Outcome: To provide health education in the form of germs and handwashing and wearing a seat belt when riding in the car.

Description of the event: Safety Town is a program for children in the Galion and Crestline school districts that are entering kindergarten. They are taught parking lot and school bus safety, Stranger Danger, traffic signals and railroad crossings, handwashing and wearing a seat belt.

Location: Galion Primary School

Audience: Galion and Crestline kindergarteners.

of Community Members Impacted: 37 children were present on the day the health department attended.

Outcomes of event: 37 future kindergarten students learned about riding safely in the car and how to properly wash their hands.

In what ways can outreach be improved? I think this was very successful.
