Nikki,

We have four people sharing an office. We would not be having clinic patients up there, just employee offices. As for handicapped accessible, we would not house an employee needing those accommodations up there. WE are willing to do the work on unpaid time (moving the city filing cabinets to the back storage room) and it appears that some of the stuff is so old that it could be discarded, depending on records retention. We need the office space, and we are willing to do the work.

Andy

I looked at it last week. I just don't know how we make that work. Storage is so tight as it is that all of the files and junk would have to be dealt with and I just can't imagine where it would all go. There is also the issue of it not being handicap accessible at all....not to mention the horror show of even getting to that staircase.

I'd love to have a records facility. Oh, and a new city building and service department while we're at it.

If you have ideas, I'm open to hearing them.

Nikki,

I know you are busy but I am wondering if the space above us/utilities may be used by our sexual health clinic? We really need additional space and we would use their grant funds and/or 340B income to transition the space. Have you looked at it yet?

Thanks,

Andrea Barnes
