

## Addendum

**Date:** January 29, 2026  
**To:** Subrecipient agencies  
**From:** Ricky Hoover, Chief  
Bureau of HIV, STI, and Viral Hepatitis  
Ohio Department of Health  
**Subject:** HIV Prevention (HP25)  
REALLOCATION ADDENDUM  
(Current Budget Period June 1, 2025 – May 31, 2026)

The Ohio Department of Health (ODH), Bureau of HIV, STI, and Viral Hepatitis is transitioning HIV funds for specific HIV activities from direct STI Program allocation to the HIV Prevention Program. As a result, these funds will be reallocated to subrecipients through the HIV Prevention grant.

Because the HIV and STI grant start dates do not align, a three-month transition period is required. To prevent a lapse in services during this time, the HIV Prevention Program has secured additional funds to cover the gap and support activities aligned with the HP25 grant objectives.

Each region will receive a reallocation letter denoting an increase in funds to bridge the period from March through May 2026. Subrecipients are required to submit a budget revision reflecting this adjustment by March 2, 2026.
