

Outreach Report
God's Little Acre Farmer's Market
June 13, 2026, 9am-12pm

Division:
Nursing

Participating Staff:
Brandi Riddlebaugh, RN

Anticipated Outcome: To provide health education and health department resources to the community.

Description of event: This is a farmer's market that takes place every Saturday from June through September in Galion.

Location: 248 Harding Way West, Galion OH

Audience: Everyone

of Community Members Impacted: Approximately 75 people were in attendance. Six surveys were completed for the Galion City Health Department

Sponsor: The Presbyterian Chapel of Hope and Peace

Outcomes of event: I was able to talk to the attendees that stopped at our table about upcoming events and changes. I gave away free resources and offered blood pressure checks. Six more surveys were completed. This is a great way to get our faces out in the community and answer questions that people may have.

In what ways can outreach be improved? I think this is a well-attended event and people seem to enjoy seeing us there and talking with us.
